

Media Guide 2020

WHAT IS RECHARGE?

The energy transition is fast-moving — and evolving rapidly. You need to know what's happening and why it matters — you need RECHARGE.

Our international team of experienced energy correspondents deliver breaking news, analysis, opinion and high-impact features from the industrial frontlines, all streamed through an industry-leading, multi-platform service. RECHARGE's website, e-newsletters and agenda-setting magazine make sure the business intelligence you need reaches you.

The global clean-energy revolution is being won. Stay ahead of the competition by using RECHARGE to get connected to global energy decision-makers.

Darius Snieckus,
Editor-in-Chief, RECHARGE

13 **New kids on the block:**
Established purveyors of advanced software and hardware for the industry have a competitive advantage despite the influx of well-funded startups with strong ties to Silicon Valley and, in some cases, equally deep connections to the renewables segment. They're well-placed to capitalize on the accelerated pace of the tech movement, while serving the greater good as an agent of change.

14 **Image:**
Cryptocurrency

11 **ON YOUR RADAR:**
Answers to these questions, and a deep dive into the technologies that are poised to reshape the industry sooner rather than later, can be found in our Insider's Guide to Tech, Fiction & Top 20 Trends to Watch in 2019.

10 **Here are some of the topics that should be on your radar this year and next:**
Artificial intelligence
